

FIG. 1

FIG. 2 is a schematic diagram of a system for monitoring a golfer's swing. The system includes a golfer (10) positioned on a golf course (20). A sensor (42) is located on the golfer's club (44). The sensor is connected to a control unit (22) via a cable (24). The control unit is connected to a display (118) via a cable (26). The display shows a video feed of the golfer's swing (60). The system is designed to monitor the golfer's swing and provide feedback on their performance.
